

ANTOP 4-way 2GHz RF Coaxial Splitter

- Splits signal to up to 4TVs
- 18K Gold-Plated Chassis
- Low Insertion Loss
- High Return Loss
- Higher Signal Quality
- Lower Noise
- Compatible with Satellite / TV RF Signals

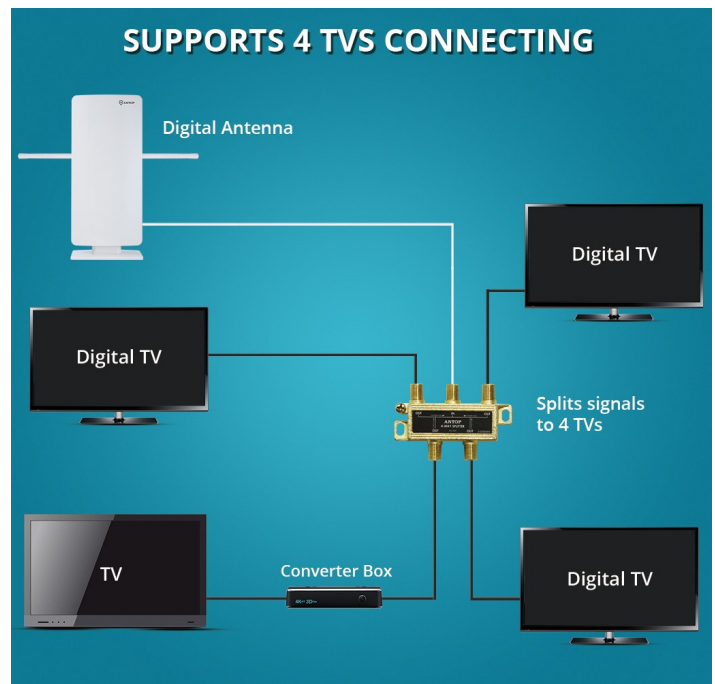

Product Features:

The ANTOP 4-ways Splitter AT-707 splits a single incoming coaxial signal, such as satellite signal, over-the-air HD (digital TV) antenna signal, into four outgoing signals. Precision zinc die-cast with 18K gold-plated chassis for maximum signal transfer, corrosion resistance, and reliable connectivity.

Product Information:

- All ports female F connector 75 Ohm
- All ports DC power pass

Dimensions and Weight:

- Consumer Packaging: 34.78x 3.26 x 0.91 in
- Shipping Carton Size: 16.90x 14.40x 7.50in
- Quantity in Carton: 80 PCS
- Carton Weight: 17.20lbs
