

## HD Smart Boost Antenna Amplifier

- Compatible with all antenna brands
- Easy to use with any passive (non-amplified) antenna
- Adjustable power boost delivers optimal antenna reception
- Dual outputs, connects to more than one device simultaneously
- 4G LTE Filter built-in for less picture pixelation
- Enhances FM reception

### Product Features:

Antop's smart power booster is the perfect combination of splitter and amplifier. Enabling you to connect a secondary device simultaneously and easily adjust the antenna's power with a turn of the dial! Mix and match your devices and optimize antenna strength to receive the best broadcast signals.
